**Description**

Robust Bulkheads are IP65 & IK08 rated & have a UV stabilised body / diffuser making them suitable for outdoor applications. These Bulkhead Bodies have been designed for our new range of GTC/GTS Gear Trays but are fully compatible with our old E15 range.

**Key Features**

- IP65 & IK08 - Designed to last in the harshest of environments
- UV Stabilised body/diffuser, suitable for use outdoors
- Body only, designed for the new GTC/GTS range of Gear Trays but is fully compatible with the old E15 range.
